# JustCall

# Every missed call is missed $$$

You hire great people. You pick the right tools, the best scripts, and the team works long hours. Yet calls keep coming in faster than they can answer.

It's not effort that's missing. It's coverage.

**60%** Answered Calls          **40%** Missed Calls

You're losing 40% of opportunities you already earned.

## Hiring more reps won't fix your coverage gap

**AI Voice Agent** fills your coverage gap by answering when your human reps can't. It qualifies leads, books meetings, logs notes, and sends follow-ups automatically.

Think of it as your new team member — one that never sleeps, rests, or forgets a detail.

## What teams usually ask before using AI Voice Agent

| Your Concern | The Reality |
|---|---|
| "AI can't replace empathy." | No, it won't. **~70% of sales/support** calls are routine. **AI Voice Agent** takes those while your team handles real conversations. |
| "Will this confuse our process?" | No. It connects to your CRM and calendar without IT involvement. |
| "Can we trust it with customers?" | Yes; Uses your scripts and CRM data, records every call, and stays compliant with **HIPAA, GDPR, and TCPA.** |
| "Is it reliable?" | Built for critical moments: **99.99% uptime.** Proven where missed calls cost trust; **Trusted by 6000+ businesses.** |
| "Will setup take weeks?" | Build, brand, and connect it in under 5 minutes from a single prompt. |
| "Will it pay off?" | Even 10 missed calls a week can burn $3K–$5K a month. JustCall's **AI Voice Agent** closes that gap. |
| "Will my team feel replaced?" | **AI Voice Agent** doesn't replace effort; it multiplies it. Reps stay on high-value calls, not callbacks or routine questions. |
